## LITTLE ITEMS OF LOCAL INTEREST

Paul Hotson, Jeweler and Optometrist, Acme, has complete eye testing apparatus here every Thursday. Entrance through Regal Gas office. Mr. Hotson is an expert in his line.

"Echoes of Chautauqua" will be the subject preached at the United Church next Sunday.

C. W. Gray was a visitor to Calgary on Sunday.

Alex Davis commenced his holidays last week and left for a two weeks vacation at Edmonton and other points.

Henry Johnson was a Calgary visitor on Sunday and returned the same day.

FOR SALE—Reed baby carriage. In good condition. Apply Mrs. W. T. Gordon.

Rev. C.B. and Mrs. Oakley have just received the sad news of the passing away of their brother-in-law at his home in Trinity, Newfoundland, in the person of Captain Geo. Barbour.

Miss Dorothy Coates arrived last week from London England, and is visiting with her brother, Hubert Coates.

Norah Atkinson and Perry Johnson, having been the winners at the school fair last year, left Monday for Olds, where they will take a short course at the Agricultural School.

LOST—Horseshoe tie pin covered with small gold nuggets. Finder leave at Regal Gas office and receive \$1 reward.

The Reverend Canon Dale, Rural Dean, of the Diocese of Calgary will hold service with Holy Communion in the Farmers' Exchange Hall on Sunday, Aug. 12 at 12 a.m. and 7.30 p.m.

Mr. and Mrs. Bob Oakley and Miss Jean Farris motored out from Calgary last week and spent a few days visiting with friends and relatives here.

Mr. and Mrs. Sydney Smythe of Toronto, arrived last Thursday and were visiting with Mrs. Hubert Coates, leaving later for Banff and Lake Louise.

V. E. and J. J. W. Grenier were business visitors to Three Hills on Monday.

J. J. Grenier motored to Drumheller on Sunday.

Bob Nevens was a Drumheller visitor last Sunday.

Mr. and Mrs. E. J. Rouleau returned Sunday evening from a two weeks holiday at Kaslo, B. C. Miss Winona Rouleau returned with them and will spend a few days visiting here.

Chas. B. Guynn has started work on a new and modern eight-roomed house. The building material for this house is being supplied by the Imperial Lumber Yard.

Mrs. W. Leitch and children left last Saturday for a visit to Banff and other points.

Jos. Connolly was a visitor to Calgary on Sunday and returned Monday evening.

Beginning on Monday next, the 13th, there will be held in the United Church, Carbon, a vacation school to which the girls and boys from five to fourteen years of age are cordially invited. The school will be held from 9.30 to 11.30 a.m. Any adults who will assist in this school will be most welcome.

W. Poxon and son Wilfred, motored to Carstairs on Tuesday.

## CHAUTAUQUA IS VERY SUCCESSFUL

The Carbon Chautauqua this year drew larger crowds every program than it did last year and the tent was crowded to capacity for every performance. The first evening of the Chautauqua the MacDonald Kiddies pleased the large audience and on Monday afternoon the Toronto Quartette received a welcome

equal to any other performance. Monday evening the Toronto Quartette again gave a few of their selections, following which, Mr. Morgan gave a very interesting lecture on "Success With Ease." On Tuesday afternoon Dr. Rivers lectured on "Modern Treatment of Delinquents" and in the evening the Martin Erwin Players put on a most successful play "Three Wise Fools."

The last day of the Chautauqua was perhaps one of the best and in the afternoon Amos Seabury presented a kiddies afternoon with his famous Punch and Judy Show. To crown the success of Chautauqua, "An Evening in Hawaii" was the concluding program. This was followed by a dance in the Farmers' Exchange Hall under the auspices of the Carbon Curling Club and the Hawaiian entertainers furnished popular and entertaining music.

This year Chautauqua has far succeeded any previous year, both in entertainment and crowds. The sponsors have realized well over the guarantee this year and next Carbon and District is again assured of this great Educational Institution visiting our town.

## Granary Lumber

If you require any granaries or grain bins to care for your crop, then let us know right away what you need, otherwise you may not be able to get it later on.

Our granary stock is now complete for any style of granary or bin. We have two more granary stock car loads coming in. This will all go with a rush at harvest and threshing time.

## Have You Paid Your Subscription Yet?

## Who Does Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

### A Great Achievement

Keen interest has been aroused in all parts of Canada by the announcement made at Victoria, recently, by Sir Henry Thornton, President of the Canadian National Railways, that, as a result of some years of study and work, a plan will be submitted to the Government and Parliament in the very near future providing for the financial reconstruction of the national system of railways, a plan which, in the words of the C.N.R. president, "will, in perpetuity, relieve the C.N.R. from being any further drag upon the treasury of Canada."

As a matter of fact, the financial reconstruction of the Canadian National Railways has been proceeding apace for some years past through the making of amicable arrangements with stockholders and bondholders of several of the railways now incorporated in the national system. These arrangements were a necessary preliminary step to a final consideration and development of a plan whereby the system could be relieved of the huge burden imposed upon it by reason of its heavy over-capitalization.

In considering the Canadian National Railways, it is always to be remembered that it was not constructed, like the Canadian Pacific, as one operating unit. On the contrary, it is the result of the amalgamation of several different systems, with lines often duplicating each other in the same territory, with duplicate sets of shops, round houses, stations, and other equipment. Thousands of miles of the system were built, not for purely commercial reasons, but as a feature of national policy for the opening up, colonization, and national development of the Dominion. Some portions were located for strategic national reasons rather than from the standpoint of the business to be secured or developed.

Under the circumstances, it was not surprising, but rather to be expected, that such mileage would be operated at a deficit. Year by year these deficits have been charged up against the lines which ultimately became part and parcel of the present Canadian National Railways. These individual systems were, in reality, bankrupt when the Government was compelled to take them over to prevent a catastrophe and financial disaster which would have shaken the Dominion and all but ruined its credit in the money markets of the world. Had these railways remained in private ownership and passed into receiverships, there would have been a drastic writing down of capitalization and holders of the stocks and bonds would have had to take their losses, while the Dominion itself would have lost all the many millions loaned to them.

It has long been foreseen that, if the Canadian National Railways were ever to earn sufficient revenues to meet interest charges on its capitalization, the financial structure of the system would have to be reconstructed so as to more nearly bear some relation to the actual physical value of the system as a going concern. But, as already stated, certain arrangements with the stock and bond holders of the old railways had to be negotiated if Canada was to escape the stigma of having broken faith with these investors and the accusation of being guilty of a policy amounting almost to repudiation.

Neither Sir Henry Thornton, nor Hon. C. A. Dunning, Minister of Railways, has given any hint of the nature of the proposals to be laid before Parliament, but the people of Canada, as reflected by the editorial expressions of papers on all sides of politics, are decidedly friendly to the development of any reasonable plan which will give the management of the national railways a fair chance to make the system self-supporting and ultimately a profit making enterprise.

When Sir Henry Thornton, at the request of the Mackenzie King Government, accepted the presidency and management of the Canadian National Railways, it was still in a state of disorganization. From an operating standpoint it had to be completely reorganized. At that time it was not only not earning one cent of interest on its outstanding stocks and bonds, but it was being operated at an actual loss year after year, which loss had to be put up in cold cash out of the Dominion treasury. Next to the war debt of Canada, it was the greatest burden imposed on the Canadian people. The outlook was blue indeed, and many people feared it would bankrupt the Dominion.

Therefore, before any permanent reconstruction of its financial system could be undertaken, it was not only necessary to effect the arrangements already referred to, but even more necessary that these annual losses in operation be stopped. It stands to the credit of Sir Henry Thornton that in this he was markedly successful. Operating deficits ceased some years places. Within the past two or three years these surpluses have been sufficiently large to meet all interest charges on securities held by the public, leaving a small balance to be applied on the enormous sum owing to the Government itself.

Addressing a meeting in a Saskatchewan town last month, Sir Henry Thornton stated that the surplus this year would be the largest in the history of the system, and that the outlook for the future of the road as a real and very valuable asset of the Dominion was never brighter, and this despite increased wages to employees and lower freight rates imposed by the Railway Commission.

The final and definite financial reconstruction of the whole system, and the resultant establishment of the Canadian National Railways as a self-supporting, publicly-owned transportation utility, will not only give the greatest satisfaction to the taxpayers of Canada, but it will prove a guarantee to the whole world of the financial stability and strength of the Dominion, and be hailed as another great Canadian achievement.

### CUTICURA

### First Woman Air Pilot

Lady Heath Employed by Royal Dutch Air Lines

Lady Heath, noted British air woman, has been engaged by the Royal Dutch Air Lines as a pilot for the passenger air service. She is the first woman to be so employed.

Lady Heath, the former Mrs. Elliott Lynn, is the wife of Sir James Heath, ironmaster and coneries proprietor. She arrived at Croydon on May 17, from Cape Town, South Africa. Completing a 10,000 mile solo flight started in February, she was the first woman to fly the length of the African continent.

### THE UNTOUCHED MEAL

People Who Go Hungry With Food On the Table

"I simply cannot eat." Actual tragedy is suggested by these simple words, so often heard, because loss of appetite is the beginning of trouble that sooner or later reveals itself as indigestion, nervous dyspepsia, with violent headaches and other serious symptoms. Loss of appetite, whether a man or woman, is a symptom you dare not ignore. If you do, much suffering is sure to follow.

The secret of a good appetite—the secret of keeping well—is to keep up the quality of the blood. By enriching and purifying the blood Dr. Williams' Pink Pills supply strength to the enfeebled organs of digestion, and enable them to digest thoroughly the food eaten without causing pain or distress. Proof of this is given by Mr. William H. Kelly, Kingston, Ont., who says:—"I cannot recommend Dr. Williams' Pink Pills too highly. I had been bothered with indigestion in a chronic form for almost ten years. Everything I would eat would turn sour. I felt as though there was a big ball in my stomach all the time. I felt tired and weak and would often turn dizzy. I doctored and tried many medicines, spending many, many dollars, but to no avail. One day I heard a lady praising Dr. Williams' Pink Pills and I decided to try them. I am more than glad I did, for soon I found relief, and after taking the pills for a couple of months the trouble had disappeared, and now I can eat all kinds of food, and have again my old time health and strength."

Send For These Health Books. Two useful books, "Building Up the Blood," and "What To Eat and How To Eat," will be sent free by The Dr. Williams' Medicine Co., Brockville, Ont., if you mention this paper. Dr. Williams' Pink Pills are sold by all dealers in medicine or will be sent by mail, post paid, on receipt of price, 50 cents per box.

### Recipes For This Week

(By Betty Barclay)

#### SCALLOPED EGGS AND CHEESE

- 4 eggs.
- 1 cup grated cheese.
- 1/2 cup soft bread crumbs.
- 1 teaspoon salt.
- 1 cup white sauce.
- Few grains cayenne.

Break the eggs into a buttered baking dish and cook in hot oven until they begin to turn white around the edge. Then cover eggs with white sauce, and over this the mixture of crumbs, cheese and seasonings. Brown in very hot oven, so eggs will not be overcooked by time cheese is brown.

#### ROLY-POLY

- 2 cups flour.
- 4 teaspoons baking-powder.
- 1 teaspoon salt.
- 4 tablespoons butter.
- 3/4 cup milk, scant.
- 1/2 cup sugar.
- 4 oranges.
- Grated rind 1 orange.
- 1/2 cup water.

Mix and sift flour, baking-powder, and salt. With tips of fingers rub in two tablespoons butter, and mix to a dough with milk. Roll out one-half inch thick, and cover with small pieces of orange pulp. Mix sugar, orange rind, and remaining butter, and sprinkle two-thirds of it over the orange. Roll up; pinch ends together; place in baking-dish; sprinkle with remaining sugar; surround with water, and bake about thirty minutes. Serve with an orange or lemon sauce.

The wood of the balsam fir is very light in color, and, being odorless, is very suitable for boxes intended for packing food materials.

Minard's Liniment — the Universal remedy.

*A mixture of very fragrant and mild tobaccos*

### Much Like Human Beings

Fish Have Same Ailments and Require Lots Of Exercise

"Fish are very much like human beings. People who have them for pets should realize this and give them some consideration," says Miss Ida M. Mellen, America's only woman fish doctor.

"Fish suffer from much the same ailments that the human species do and they cannot exist if their conditions of life are uncomfortable.

"We learn a lot about people from fish. Take the matter of exercise. If fish get lazy and won't exercise, they get sick. To remedy this at the New York Aquarium, we give them a change of scenery. You would be surprised how a more attractive swimming ground and an extra amount of sunlight arouses their enthusiasm.

"If fish eat too much of the wrong food, they get indigestion just like humans. And, like humans, they hate to take castor oil. I have had fish hold it in their mouths and spit it out later, rather than swallow it. We have to watch them just like children to see that they get their medicine.

"An excellent motto to make sure your pet fish has good care is, "Try to imagine yourself in his place. That makes you think."

#### Quite Possible

"The evening wore on," continued the man who was telling the story.

"Excuse me," interrupted the would-be wit, "but can you tell me what the evening wore on that occasion?"

"I don't know that it is important," replied the story-teller, quite unperturbed. "If you must know, however, I believe it was the close of a spring day."

#### Minard's Liniment for Blistered Feet.

A great deal of time is wasted by urging the other fellow to have common sense. If he hasn't common sense, he won't get it, so let him alone.

A fishing rod that registers the weight of each fish as it is caught has been invented and the inventor probably will starve and probably deserves to.

Only the uninformed endure the agony of corns. The knowing ones apply Holloway's Corn Remover and get relief.

For every dollar Canadian tourists spent in the United States in 1927, American tourists spent four dollars in Canada, it is said.

### League Is Fighting

Illicit Drug Traffic

New International Convention Goes Into Effect In September

A general world-wide tightening-up of the illicit "dope" traffic is scheduled to take place when the League's new international opium and harmful drugs convention goes into effect on Sept. 25th.

Although the convention was launched in 1925, provisions were made that it could only become effective when ratified by at least 10 states of which seven must be members of the League council including two permanent members.

To date the convention has been ratified or adhered to by nearly 30 states but it was only Canada's recent ratification that gave the necessary number of council members.

For Scalds Or Burns.—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinary's fee.

### Would Be Sensible Law

Motor Brakes Should Have To Pass Certified Tests Regularly

It is strongly suggested that the time is coming in the near future when brakes must be tested and certified regularly; and the careful motorist will make no objection.

When it is remembered that 800,000 people were killed or injured in automobile accidents in the United States alone last year and the fact that faulty brakes cause a majority of all accidents, the need for such a law may be realized. It is the height of folly to drive with faulty brakes.

Miller's Worm Powders are a prompt relief from the attacks of worms in children. They are powerful in their action and, while leaving nothing to be desired as a worm expellant, have an invigorating effect upon the youthful system, remedying fever, biliousness, loss of appetite, sleeplessness, and other ailments that follow disorders caused by worms in the stomach and bowels.

The average man is better at confessing the mistake of other people than he is at acknowledging his own.

One little trouble may make us forget a dozen things we ought to be thankful for.

## THE CROPS

As yet the Carbon district has had no hail and with harvest about one week away everyone is optimistic and looking forward to seeing one of the largest of bumper crops ever harvested in this district. The crops around Carbon are probably as good or better than in most districts in Alberta or Saskatchewan and another month of good dry weather will see a great deal of grain in the elevators. Especially where the combine is used, crops will be off the fields in some cases by the first of September, while others will be a little later. With crops so well advanced this year and with the abundance of sunshine just when it was needed, there will be little danger of frost bothering the grain. This will mean that in all likelihood the grade will be much improved over last year and many farmers will be getting No. 1 and 2 for their grain, whereas last year it graded No. 4 and 5. Some farmers claim that with the large crop and the high grade expected, that the price of

## An Empress

The Canadian Pacific liner "Empress of Australia" in Southampton Roads.  
From a height of two thousand feet the giant liner looks like a toy boat although her registered tonnage is 21,850 gross and she is one of the largest liners to come up the St. Lawrence River.

wheat will drop to around 75c this fall, although that remains to be seen. Particularly where the Pool is concerned. The Wheat Pool member will receive the highest average price for his wheat and when the price is low the non-pool grain will go on the market while the Pool will hold their grain until a shortage is declared, resulting in the rise of prices and thus giving the farmer a fair price at least for his wheat.

Completing her 28,000-mile cruise around the world in the course of which she visited 18 countries and 27 ports, Canadian Pacific flagship Empress of Australia docked at New York April 12, from which port she sailed December 2 last. She was carrying 320 passengers, including prominent society and banking leaders of Montreal, Toronto and other Canadian and United States cities.

Winnipeg.—Over a thousand new homesteads have been filed in the four western provinces during the month of January and February this year, being 1,036 as compared with 629 for the same two months' period of last year. By provinces, Manitoba reports 74 homestead entries as against 71 last year, Saskatchewan 430 as against 336, Alberta 502 as against 213, and British Columbia 30 against 9.

Raymond.—According to a cable from London, England, discoveries likely to be important for the Canadian beet sugar industry have been made at Oxford. A means has been found to dry the sugar beet and thus allow the manufacture of sugar to be continued throughout the year, and it is even believed that a method of treating the resulting effluent in such a way as to free it from poison has also come to light. The discoveries are a result of four years' research work.

Canadian dinners in the Old Country are not considered complete without Canadian ice cream for dessert. Thus, for the High Commissioner's annual dinner in London on July 20 two eight-gallon tubs of the delicacy were ordered and these were delivered by Canadian Pacific Express in ample time for the dinner. The same thing was done last October for a special Canadian dinner held at Manchester by the Canadian Trade Commissioner there.

Ottawa, Ontario.—By the end of the season 15 flying clubs will have been established throughout Canada, according to advices from the Air Board. A total of \$170,000 is being spent by the board this year in the promotion of these clubs for civilian flying. Clubs have already been established at Montreal, Toronto, Ottawa, Hamilton, Halifax, Saskatoon, Regina, Moose Jaw, Edmonton, Victoria and Granby. One at Halifax and another at London are about to enter the list.

Transportation of small but valuable packages by air from Canadian Pacific liners at Rimouski to Montreal and Toronto, thereby saving about 24 hours in time is becoming increasingly popular. After Montreal, Toronto, London and Chatham, Guelph had its turn with a parcel of Irish linens going to a department store there and the shipment being welcomed by Mayor Robson and other prominent citizens of the town. These parcels are handled by the Canadian Pacific Express Company.

A tablet in memory of men of the Seventh Royal Fusiliers who served with the Quebec garrison during the siege of 1775-76 by the Americans under Montgomery and Arnold, was unveiled on Dominion Day on the Wall of the Chateau Frontenac by His Excellency, the Governor-General. Present at the ceremony were officers of the Fusiliers from England and a detachment from the Canadian Fusiliers of London, Ontario, who are affiliated with the English corps. The Chateau Frontenac occupies the site of the old Chateau St. Louis which was the military headquarters during the siege.

Inspection of the "Duchess of Bedford," new 20,000-ton Canadian Pacific liner, which recently made her maiden trip to Montreal, at once disclosed the extreme suitability of these "Duchess" ships for tropical travel. Ventilated under the Ball-Louvre system of individually controlled outlets, cool air is forced under gentle pressure to every part of the vessel. Broad sun-decks and an open-air swimming pool add to the luxurious appearance of the ship and it has now been decided that the "Duchess of Atholl" shall be used on the South America-South Africa cruise next year.

## "JUST AS THE TWIG IS BENT, THE TREE'S INCLINED"

BELIEVING that the individual thrift of our citizens is the backbone of Canada's prosperity, the Bank of Montreal does all in its power to encourage systematic saving on the part of youth.

At all of our Branches we welcome the savings accounts of children. Start such accounts for all the young people of your family and let them early learn the earning power of money.

## WORLD HAPPENINGS BRIEFLY TOLD

Announcement is made by the minister of National Revenue, Hon. W. D. Euler, of the coming into effect of the trade treaty between Canada and the Baltic Republic of Latvia.

The British Government will establish agricultural schools to train idle coal miners to be farmers, preparatory to their migration to the Dominion to settle upon free land.

Lord Salsburgh, Lord Chancellor of Great Britain, heads the nineteen delegates from Westminster on the trans-Canada tour of the British Empire Parliamentary Association.

Plans under consideration of the New York Central Railroad call for the co-operation of the Canadian Pacific Railway in establishing air mail routes between Minneapolis, St. Paul and Winnipeg via Duluth.

Miss Amelia Earhart, the first woman to fly the Atlantic ocean, has sent a cheque for \$1,500 to Commander Richard E. Byrd as her contribution toward the Byrd Antarctic expedition.

Believing that Alfred Lowenstein might have been poisoned, the family of the dead man has requested permission to file suit charging an unnamed person with poisoning Lowenstein, in the event traces of poison are found in the body.

Sir Austen Chamberlain, foreign secretary, announced in the House of Commons that Great Britain had reached a compromise with France over the naval disarmament question which would be submitted to the other naval powers and eventually to a disarmament conference.

The cabinet council has confirmed the appointment of the commission to enquire into the return of the natural resources of Manitoba to the province. The personnel will be Mr. Justice Turgeon, supreme judge of the Saskatchewan court of appeal; Hon. T. A. Crerar, and C. M. Bowman of Waterloo, Ont.

The Terror Of Asthma comes like a thief in the night with its dreadful throttling, robbing its victim of breath. It seems beyond the power of human aid to relieve until one tries the remedy of that remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. Life becomes worth living, and if the remedy be used persistently, the disease is put permanently to rout. Take no substitute.

### Seeking Information

A witness was being examined, "My Lord," he said, "you can believe my statement, for what I have said is absolutely correct. I've been wedded to truth since my childhood."

"Quite possible," replied the Judge, "but what the court wants to know is how long have you been a widower?"

## Stings and Bites.

The pain of insect bites disappears quickly with the application of Minard's. Try a bottle.

## Modernizing E.P. Ranch

Electric Plants Furnish Light and Pump Water For Ranch Buildings

The ranch of H.R.H. the Prince of Wales, has been electrified. Two large individual electric plants, of the type used by thousands of Canadian farmers, were installed recently on the E.P. ranch, completely electrifying the many buildings which form a small city on the farmstead. Two electric residence water systems were also installed to supply drinking water, so that kerosene lamps and water from a pump are as rare at the ranch house as they are in the Prince's home in London.

## Stabilizing Easter

Hoped That International Agreement Will Be Reached For Fixed Dates

The measure stabilizing Easter in Great Britain and Northern Ireland, given third reading in the House of Lords recently, will not be effective until an international agreement has been reached, it is stated.

The bill provides for observance of Easter on the Sunday after the second Saturday in April, instead of determining the date by the phases of the moon.

## CHOLERA INFANTUM

Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months and unless prompt action is taken the little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent the dreaded summer complaints. They are an absolute safe medicine, being guaranteed to contain neither opiates. They cannot possibly do harm. They nor narcotics or other harmful drugs, always do good. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### A Chic Frock For the Junior Miss

The little one-piece frock shown here is a smart and practical style for all daytime wear. The skirt has an inverted plait in the centre front, and the sleeves are long and gathered to narrow wrist-bands, or short and finished with shaped cuffs. A note of contrast may be introduced in the shaped collar and set-under vestee, and the belt fastens with a buckle in front. No. 1808 is in sizes 6, 8, 10, 12 and 14 years. Size 8 requires 2 1/2 yards 32-inch, or 2 1/2 yards 39-inch material, and 1-3 yard 39-inch contrasting (cut crosswise). Price 25 cents the pattern.

## Farmers' Marketing Tour

Canadian National Railways' Tour To Great Britain and Denmark, 1928

(Continued.)

We bade London an early farewell, being on the way to Cambridge by 8.30 a.m., passing through Waltham Cross with its Abbey of the Holy Cross, re-founded by King Harold, in 1060, Cheshunt, which was invaded by the Danes in 893, and Epping Forest, the former royal game preserve, which is now the Londoner's favorite playground.

It would be impossible to describe the charm of the colleges of Cambridge University, its peaceful setting among the wonderful lawns through which runs the River Cam, or the beauty of the time-worn masonry. Nor could one hope to convey the sense of atmosphere that time has given to this ancient seat of learning, something of which we caught even in our hurried trip through the grounds. Fortunately, we had the opportunity of visiting King's College Chapel. The towering vaulted roof of this poem in stone, the softened light mellowing through the stained glass windows, the dim shadows, the beauty of the organ poised high in the centre of this noble building, spoke to heart and mind, and soul, of man's aspiration to Divine things. King's College Chapel is acoustically, as well as architecturally, marvellous; an anthem heard in it is unforgettable.

Proceeding to Calus College we had lunch in the dining hall, the Vice-Chancellor, Dr. Weeks, sitting at the head of the table. Again we felt the sense of privilege, of "atmosphere," for surrounding us were portraits of some of the famous men of Calus, dating from the Middle Ages, visible evidence of her continuity with an illustrious past.

A delightful luncheon was followed by an address of welcome from the Vice-Chancellor, and a short talk from Sir Ernest Rutherford, whom some of us remembered as a one-time professor at McGill University.

Returning to one of the lecture halls of the Animal Nutrition Institute, we listened to Professor T. B. Wood, General Director and Director of the Chemical Section, who described the work of the Institute and some of the experiments which had been conducted with a view to finding standard maintenance rations for hogs, cattle, horses and poultry. Professor Sir R. H. Biffen, Director of the Plant Breeding Institute, then discussed the experiments which had led to the production of Yeoman Wheat, a wheat of high yield and possessing some of the qualities of the harder wheats of Canada.

Visiting the Forestry Section, we saw specimens of our own Douglas Fir, Bird's-eye Maple, Canadian Poplar and one of the finest specimens of English oak panelling in the world. The calorimeter with a hog inside it, the chemistry room and the Low Temperature Station were examined. This last was full of interest to us. Here meat hanging experiments and tests for discovering the best methods of carrying apples and rabbits in low temperatures were being conducted. These and the work of the station were explained by Sir William Hardy at a meeting in the University Arms Hotel, after which undergraduates entertained us to a musical programme.

The itinerary for the following day provided for a visit to one of the most remarkable concerns in the world, Chivers & Sons, Ltd., of Histon. Fifty years ago Chivers were orchardists, selling fresh fruits on the London and Bradford markets, but a glut which forced them to sell to the jam manufacturers, changed their whole policy. They determined that they would themselves make jams. They enlarged their orchards. Insect pests led them to keep poultry. The failure of hens to keep down the orchard pests induced them to add ducks. Then they went on to cattle, pigs, sheep and bees. Today Chivers farm 6,000 acres of land and raise annually 12,000 chicks, 6,000 ducks, and 2,000 pigs. Histon cattle have won four championships, one reserve, seven firsts and four second prizes at the last Royal Show of England, and five championships were included among the awards won by Chivers at the 1925 and 1926 Royal Shows. They have been no less successful with their Yorkshires and Middle Whites in winning championship awards. They also keep Suffolk sheep and Percherons.

It was our pleasure to spend half a day inspecting as much of the farms and orchards as could be covered in that time. Among the animals we saw was Histon Wild Queen, champion of the Royal Show, whose average milk yield with her first five calves was 11,964 lbs. The Histon Dairy Shorthorn herd is a genuinely dual purpose herd. Many of the cows exceed 1,000 gallons annually. There is also a Lincoln Red shorthorn herd of 150 females. Their Yorkshires and Middle Whites are the most outstanding to be found anywhere and it was an inspiration to see the remarkable size, smoothness and finish of these animals.

But famous as the concern is as a farming organization, it is the combination of farming, manufacturing and marketing which makes this firm unique. From Chivers' factory a whole trainload of goods leaves every

day. The factory is the last word in efficiency. The pans in which the fruit is boiled are lined with silver. Jam jars are filled by machines at the rate of 150 to 200 jars per machine per minute. Miniature trains carry the products from department to department. Everything is kept moving. Not a moment is lost, yet there is no hurry, while the workers were evidently contented and happy, thanks to the personal interest that is taken in their welfare and the institution of co-partnership and profit-sharing. What a contrast from the little barn, still standing, in which the first boiling was made.

Before leaving we were entertained to tea in the company's dining hall, when Mr. J. R. Chivers and Mr. W. B. Chivers told us something of the history of their famous firm and presented every one of us with two tiny jars of jam, exactly like those which were specially made for the Queen's Doll's House, exhibited at the great Wembley Exhibition, in 1924. These little jars of jam are the smallest in the world.

No finer lesson in the marketing of farm products, and for that matter in the growing of them, could have been given to a party of farmers or more pleasure afforded us in the learning of it.

(To Be Continued.)

## SUNDAY SCHOOL LESSON

AUGUST 12

### THE COUNCIL AT JERUSALEM

Golden Text: If therefore the Son shall make you free, ye shall be free indeed.—John 8:36.

Lesson: Acts 15:1-35; Galatians 5:1-15.

Devotional Reading: Psa'm 133.

### Explanations and Comments

Trouble-Makers From Jerusalem, verse 1. Jewish synagogues were composed of Jews and proselytes, the latter being Gentiles who had received the Jewish rite of circumcision. Other Gentiles who attended the synagogue services were called "God-fearing" or "devout," but were not in "full fellowship" with the rest because they had not been circumcised. We have seen how Paul and Barnabas preached to the Gentiles and founded churches among them at Pisidian, Antioch, Lystra, Iconium and Derbe on his first missionary journey, and how he reported to the church at Antioch of Syria, the church which had sent them on their mission, that "God had opened a door of faith unto the Gentiles." The church at Antioch, itself composed largely of Gentiles, rejoiced over the good news, and did not realize the far-reaching effect of this new departure. When the report reached the church at Jerusalem, however, it was not so welcome. In fact, it aroused violent opposition. "Certain members" of that church, upon their own responsibility, went from Jerusalem to Antioch and declared there that Gentiles must first become Jewish proselytes before they could become Christians—must be "circumcised after the custom of Moses" in order to be "saved."

For their stand there is much to be said. The rite had been observed since the days of Abraham, and no law abrogating it had been voiced. Who had authority to declare it unnecessary? What right had Paul to adopt his revolutionary procedure and say that "Circumcision is nothing and uncircumcision is nothing?" Paul had the right of a revelation from God, a revelation shown, not by vision nor by word of prophet, but by results which proved God's will and purpose. God had borne the Gentiles witness, giving them the Holy Spirit even as He did unto the Jews; and he had made no distinction between Jews and Gentiles, cleansing their hearts by faith. God's will is shown in His ways with men as well as through His words to men.

"The Jews of the first century eschew the Gentiles, but we of the twentieth century eschew the Jews. They were wrong, and so are we."—George W. McDaniel.

It Bids Pain Begone.—When neuralgia racks the nerves or lumbago cripples the back is the time to test the virtues of Dr. Thomas' Electric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

### Wanted the Usual Bonus

"MacGregor," said the butcher to the thrifty one, who was planning to make an exit from the neighborhood, "I have every reason to believe that you will never pay me the amount due. It would be very foolish of me to sue you and you have nothing of value that I care to attach. I'll just give you a receipt and call it paid in full."

"That's awfully nice of you," said Mac.

A few moments later the merchant noticed that Mac was still resting his pedantic extremities in the store. "Was there something you wished to speak to me about?" asked the merchant.

"Well, not exactly. But isn't it customary to give a fellow a cigar when his account's been settled?"

## Are You Ready

## When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot put away. And it's always ready for the crueler pangs of colic, or constipation, or diarrhea; effective, too, for older children. Twenty-five million bottles were bought last year.

### Sees Good Market In Canada

Great Britain Waking Up To the Importance Of Canada As Trade Centre

"In the past two years the British manufacturer has been waking up to the importance of Canada as a trade centre, and for this reason the Overseas Trade Department is reorganizing and improving its system in this country in an effort to bring the necessary facts before the manufacturers of the Old Country," said W. J. Glenney, Inspector General for the organization in question, upon his arrival in Montreal. "We are not here to wave the flag, and ask Canadians to buy British goods merely because they are under the Union Jack, but we want to create an organization here that will enable the manufacturer in England to become acquainted with the problems and requirements of Canadian importers," he stated.

### Raise English Pheasants

Experiment Is Being Made To Introduce Game Bird In Saskatchewan

An attempt is being made in the Alsask and Lovernia districts in Saskatchewan, to raise English pheasants of the ring-necked variety. It is not many years since Hungarian partridge was introduced into Western Canada. The experiment will take some years, it is said, and if successful will furnish an added attraction for bird hunters.

## SUMMER COMPLAINT Nearly Lost Her Little Girl

Mrs. Theodore Rivett, Anthony, Ont., writes:—"Last Fall I nearly lost my little girl as she was suffering terribly from summer complaint. She became very thin and weak; had no appetite, and could hardly walk across the room without falling down. At last my mother advised me to get a bottle of

and after she had taken a few doses she was relieved.

I also found it a grand remedy for cramps, and would not be without a bottle of it in the house for anything."

Has been on the market for over 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

## BRITISH MINERS COMING TO ASSIST WITH HARVEST

London.—Arrangements have been finally concluded for 10,000 men to go from Britain to Canada to assist in this year's harvest, stated Rt. Hon. L. C. M. S. Amery, Secretary for the Dominions, in the House of Commons.

The Dominion Government especially wished that the men be recruited from the mining areas and the British Government would carry out these wishes, the minister said. He concluded amid cheers:

"The British Government is greatly indebted to the Canadian government for the readiness with which they co-operated in this arrangement."

Ottawa.—The Canadian Government is not assuming any financial responsibility for the movement of the British harvesters either coming or going, it was stated at the immigration department recently. The department, however, has expressed its willingness to co-operate in every possible way in placing men who wish to stay in Canada after the harvest is over.

Under the arrangement reached, men who wish to return will have the benefit of the reduced rate they paid westward. But it is assumed that most of them will wish to remain in Canada, and the problem will then arise of their absorption without increasing winter unemployment in the cities.

## Mine Workmen Killed In Ontario Accident

Crushed By Falling Steel Gate On Welland Canal

St. Catharines, Ont.—The crash of the steel gate of lock number six of the new Welland Canal, at Thorold, Ont., caused the deaths of at least nine workmen and injuries, some of which have proved serious, to about 30 others. About 40 workmen were in the vicinity of the lock when the disaster occurred, and none is believed to have escaped death or injury.

The accident was caused by the boom of one of the cranes slipping when an effort was being made to raise a huge 500-ton steel gate into place on the West side of the lock. Two cranes were at work at the time, one handling each end of the heavy gate. The crane nearest to the head of the lock held but the boom of the crane at the lower end slipped.

The huge gate crashed into the steel gate fabric at the east of the lock and smashing the steel work fell to the bottom of the lock, crushing the workmen as it fell.

### Must Keep Arctic Rescue Films

Moscow.—The Russian relief committee approved recently the refusal of aviator Chukhnovsky, of the Russian ice-breaker Krassin, to hand over to General Umberto Nobile films he took when he sighted two men of the dirigible Italia on the ice off Northeast Land. In refusing to give Nobile the originals of the film, the relief committee said Chukhnovsky was right, for he had been ordered strictly as had been other Russian rescuers, to retain all material and data gathered.

### Death Of Mrs. W. S. Fielding

Ottawa.—Mrs. Hester Fielding, wife of Right Hon. W. S. Fielding, former Canadian minister of finance, one of the capital's most distinguished women in social and philanthropic circles, died at the family residence here. She had been failing in health for nearly four years and had been almost entirely confined to her home throughout that period. Mrs. Fielding was soon to have celebrated her 80th birthday.

### On Way To Far East

Montreal.—His Royal Highness, Prince George, the King's youngest son, will arrive in Quebec City on August 16, aboard the Empress of Australia. Prince George is on his way to the far east where he is going to join the China flagship. From Quebec he will journey by train to Vancouver.

W. N. U. 1745

## Crowds Welcome Nobile Party

Meet Train At Every Stop In Italian Territory

Rome.—"Viva Nobile!" was the slogan of Italy as countrymen of the Polar explorer welcomed him and five other survivors of the dirigible Italia to their homeland.

Enormous crowds met the train at each stop in Italian territory, showering the returning explorers with flowers and gifts of wine, and shaking rafters of railway stations with their roars of encouragement.

The demonstrations constituted a veritable march of triumph from the northern frontier.

Premier Mussolini sent the prefect of Bolzano to welcome Nobile and his men at the Brenner pass in the name of Fascist Italy. There also were striking demonstrations at Trento, Verona, Bologna and Florence.

Lieut. Alfredo Viglieri, navigator of the dirigible Italia, who was in command of the red tent encampment on the ice after Nobile himself was rescued, was the centre of demonstration all his own. He left the train soon after passing the frontier and went to his home in the little town of Borghetto Santo Spirito. En route, however, he had to stop at Milan, where the prefect and an enormous crowd welcomed him.

The crowd shouted "Viva Viglieri!" and "Viva Nobile!" and added: "Down with the jackals of the anti-Italian press!"

## Grant For Class "B" Fairs

Will Receive Same Assistance From Government As Given Last Year

Ottawa.—It has been decided by the government that class "B" fairs will receive the same grant in 1928 as they did in 1927. This was stated by Dr. J. H. Grisdale, deputy minister of agriculture, when asked respecting a report that the government was contemplating giving these fairs some measure of assistance.

During the last session of Parliament no appropriation was made for the class "B" fairs as had hitherto been done, the entire government grant in this connection going to the class "A" expositions. Considerable opposition to this has developed among the farmer element of the House of Commons and the agricultural estimates were subjected to severe criticism on this account both by friends and opponents of the government.

The deputy minister's announcement restores the former status of the class "B" fairs for the current year.

## Scores Double Victory

Vancouver Boy Wins Twice In Olympic Sprinting Event

Amsterdam. Percy Williams, of Vancouver, sent the Canadian flag to the top of the Olympic pole for the second time in three days, in token of a world victory in the Olympic games. The youthful sprinting marvel won the 200 metres final against some of the finest and most experienced sprinters in the world, including Jackson Scholz, of the U.S., the title holder. Williams is the Olympic champion at 100 and 200 metres, the first double sprint winner in the Olympiad of 1928.

### Fire-Eater Burned

London, Ont.—Essaying to entertain a few companions by igniting with a match a mouthful of gasoline, Alex Johnston, young Irish farm hand, was badly burned about the head, chest and arms when the liquid lighted too suddenly. He was blowing the gasoline toward the match flame when the liquid ignited.

### Law Suits Total Millions

Budapest, Hungary.—Lawsuits totalling \$300,000,000 have been instituted in the international tribunal at The Hague against the Jugo-Slavian Government by the former Archduke Frederick of Austria and 25 others. The suits are based upon confiscation of property. Frederick claims a loss of \$17,000,000.

### Kellogg Going To Paris

Paris.—Secretary of State, Frank B. Kellogg, has sent word to M. Briand, Foreign Minister, that he will come to Paris to sign the multilateral treaty renouncing war, sailing from New York on the French liner Ile de France, on August 18.

## HEADS RETAIL MERCHANTS ASSOCIATION

J. T. Crowder, Toronto, was re-elected president of the Retail Merchants' Association of Canada at Regina. He was elected over J. E. Sansregret, Montreal, who was vice-president last year.

## Ottawa Crowds Greet Lieut. Desmond Burke

Rousing Welcome Given To Member Of Bisley Team

Ottawa.—With the plaudits of his fellow citizens ringing in his ears, Lieut. Desmond Burke, of the Governor-General's Foot Guards, who at the Bisley meet in 1924, won the King's Medal, and this year came within one point of duplicating the feat, came home.

He was accorded a spontaneous welcome by large crowds which thronged the central station, blockaded his entrance and stretched several blocks along nearby streets. Among those on the platform to welcome him in addition to his parents and relatives, were Premier Mackenzie King, Mayor Arthur Ellis, and members of the board of control and the city council.

## Plans Visit To Canada

Bisley Winner May Take Part In Dominion Rifle Meet

Montreal.—Arthur C. Hale, winner of the King's Prize at Bisley this year, is coming to Canada according to the eight members of Canada's 1928 Bisley rifle team, who arrived here from England. Hale, a 23-year-old gunsmith, of Birmingham, intends it is said, to take part in the Dominion Rifle meet at Ottawa. He has been shooting eight years. His father and brother are crack shots. It is understood that six members of the Australian team also will come to Canada for the same meet.

## Initial Pool Payment

Statement Made That Payment On Current Year's Crop Will Be Same As Last

Saskatoon. The initial payment by the Wheat Pool on the current year's crop will be the same as last year, according to B. Catton, of the Central Selling Agency, representatives of district nine of the Saskatchewan Pool. This means that the first payment on No. 1 Northern wheat delivered at Fort William will be one dollar per bushel; 97 cents for No. 2; and 92 for No. 3.

Despite the fall that wheat has taken in price during the past few weeks, the pool is not worrying. Mr. Catton stated, and it has every hope of marketing the crop to advantage. Discussing the cut-off date that is in demand by so many farmers, he said that he was not in favor of it except in the exceptional circumstances of wheat falling to such a low level that the non-pool farmer, sensing the opportunity to better himself by joining the pool, attempted to come in at the last moment.

## Fewer Leaving Canada For United States

Figures For Year Just Closed Show 11,448 Less

Montreal.—Emigration from Canada into United States along the eastern section of the boundary decreased in substantial manner during the fiscal year ending June 30, 1928. Figures for the year are announced by H. R. Landis, United States Commissioner of Immigration at Montreal, head of District No. 1, which extends from Halifax to Kingston. In this district, which roughly covers the eastern boundary, emigrants admitted to the United States from Canada for permanent residence totalled 34,383 during 12 months ending June 30, 1928. For the previous year the total was 45,831 emigrants, or 11,448 more than in the year just closed.

## Civil Service Council

Hon. Peter Heenan Wants Representatives To Meet The Government

Ottawa, Ont.—Hon. Peter Heenan, minister of labor, stated that he is issuing invitations to civil service organizations to select representatives to meet with the government in order to draft a constitution for a national civil service council. This action is in line with the report of the select standing committee on industrial and international relations, which devoted some considerable time during the recent parliamentary session to this matter. The minister has left the capital for Winnipeg.

## C. P. R. REVISED BRANCH LINE HAS BEEN SANCTIONED

Ottawa. The Board of Railway Commissioners has handed down a judgment approving the route map showing the revised general location of the Canadian Pacific Railway's Swift Current Northwesterly branch, which projects northwesterly in a direction which, it is intended, will ultimately have as its terminus, Willingdon, Alta.

In delivering the judgment, Hon. H. A. McKeown, chief commissioner, details the history of the construction of the company's branch lines, and notes the objection of the counsel of the Canadian National Railways that this would be really an extension of the Cutknife-Whitford Lake branch, from which, the National lines contend, the Canadian Pacific has not obtained parliamentary authority. Counsel for the Canadian National advanced that the terminus of the Cutknife-Whitford Lake line was at Willingdon and that the road to Strathcona could not be built as an extension of this branch.

It was further argued that the Swift Current Northwesterly branch was originally projected from Swift Current to Edmonton via Empress, Cereal, Coronation, Olaton and Camrose. Of this only the portions between Swift Current and Empress, and Coronation and Lorraine had been built.

A revision of the Canadian Pacific Railway Company's plan was acceded to in 1919, and the Canadian National contends that the rival company is taking advantage of this nine-year-old revision to extend the Cutknife-Whitford Lake line from Willingdon to Edmonton. Exception is taken on the ground that this is an extension of a branch line already constructed.

The chief commissioner reviewed the matter of branch line construction and recommended the diversions asked for.

## All-Canadian Phone Service

Gap Between Sudbury and Fort William Has Been Bridged

Toronto. An all Canadian telephone line linking Ontario and Quebec with the Twin Cities at the head of the lake and Manitoba was officially opened and the necessity of switching calls through the U.S. will thereafter be eliminated.

The Canadian Pacific Railway, Bell Telephone Co., Manitoba Government Telephone system and the municipal systems of Fort William and Port Arthur co-operated in the all Red route.

The gap to be bridged was the sparsely populated section between Sudbury and Fort William, and the connection between existing long distance telephone systems was made via the C.P.R. right-of-way.

## Message From Lost Aviators

Note Found In Bottle Signed By Names Of Elsie Mackay and Capt. Hinchcliffe

London, Eng. A bottle washed up on the shore near Flint, North Wales, Tuesday, contained a note on which was written, "Goodbye all." Beneath the brief message was signed the names Elsie Mackay and Captain Hinchcliffe, and beneath the names the words "Down in fog and storm."

### Held For Obregon's Death

Mexico City. Sister Concepcion Acebedo de la Lata, 32, is under arrest charged with having induced Jose Toral to assassinate General Alvaro Obregon. She is quoted by newspapers as saying: "I hope to be executed. I want to be punished." She did not admit influencing Toral to kill Obregon, but added: "God must have wanted, otherwise He would not have permitted the crime."

### No Car Shortage For Crops

Winnipeg.—There is no shortage of cars for handling of this year's grain crop, the railway association of Canada has announced, but there was every possibility that the harvest will be the heaviest in years and all of the 80,000 cars now in Western Canada, probably will be needed.

Master "Kawin" and Miss "Nichin," photographed near the Windsor Station in Montreal with their mistress, Mrs. E. Roncarelli, who is having them sent to Italy for presentation to Marquis de Pinedo, the famous Italian round-the-world flier. They form a "No Good" combination. "Kawin" meaning "No," and "Nichin" meaning "Good," in Indian dialect. Needless to say, the latter is the lady bear cub with a sunny disposition, and the former a young

gentleman with a rather bad temper at times. They were obtained by the General Tourist Department of the Canadian Pacific Railway from Fred. Arnott, who captured them in the Lake Temiskaming district. The two bear cubs are being sent over to Italy, where they will be met by de Pinedo in his plane, and flown to their new home.

**NURSES** know, and doctors have declared there's nothing quite like Aspirin to relieve all sorts of aches and pains, but be sure it is Aspirin the name Bayer should be on the package, and on every tablet. Bayer is genuine, and the word genuine—in red—is on every box. You can't go wrong if you will just look at the box:

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trade mark.

### CHAPTER XXIX.—Continued.

When Helmi returned to the city she went to the hospital for news of Lili, and she went without fear. She had the assurance of Lili's safety, and as she sat in the small, dark waiting room it did not occur to her that she was a lonely girl in a big city, with a sick baby and no money. Helmi was already planning her summer and counting the days until little Lili could go with her.

The nurse who had so kindly received the baby came to speak to her. "Oh, I remember you," she said smiling. "You are looking much happier. I told you she would do well, and she has. She was very ill the second night, but a change came about day-break. The fever left her then and she went to sleep and has been doing well ever since. If you will go out and stand on the north side of the hospital I will show her to you through the window."

Helmi's face beamed with the prospect. "What will I have to pay?" she asked the nurse.

"Nothing, dear, not a cent. The City provides this hospital, everyone pays for it, so do not worry over that."

"It is like a dream," said Helmi; "everyone is so good."

When the nurse came with little Lili in her arms and Helmi saw the beloved little head of brown hair and the little face like an exquisite flower, her heart was full of love and gratitude, and when the nurse lifted the tiny hand and waved it toward

## MOTHER OF TWINS HELPED

Restored to Health by Taking  
Lydia E. Pinkham's Vegetable Compound

Mitchell, Ont.—"I had little twin babies and for quite a while after I was so weak I could not do my work because of pains all the way up my legs at the back. I also had headaches and got very little sleep. I took Lydia E. Pinkham's Vegetable Compound, and soon I was able to get up and do my work. I have taken three bottles and I am fine, do my work without trouble and am gaining in weight and strength. I will gladly recommend the Vegetable Compound to anyone."  
Mrs. F. STATION, Box 220, Mitchell, Ont.

W. N. U. 1745

her, Helmi could not see any more for the rush of happy tears. She came back into the office again to ask for Roland.

"I almost forgot the other baby," she said; "is he doing well?"

"You are more concerned than his mother," said the nurse, "though his grandmother has been here several times. He will get better we think. He is a strong baby, but a baby needs to be loved. Care is not enough there is something more."

"I know," said Helmi.

To the North Star Rooming House Helmi went to explain her absence to her good friends, the Corbells. Mrs. Corbett was alone, and over a cup of tea Helmi told her story. It was easy to tell Mrs. Corbett; she knew about God and how good He can be.

"Thank God, you're alive, Helmi! You gave me an awful scare clearin' out that way with the wild foreign look in your eyes. I did not know what you were up to, but I could only pray God to take care of you, for vain was the help of man and me not knowin' where to look for you. My Gosh child, what have you done to your boots?"

Helmi told her about her flight through the woods, the coming of the dog, and everything.

"Look at that now! Ain't God wonderful? That's what Christ said over and over again, only the people couldn't sense it. Well, I'm glad you've found peace, Helmi; it's the greatest gift God has sent to us. And you got the money, too? Well, get a new pair of boots, child, good strong ones. If a person has good boots and a good bed they're all right, for you are in one or the other of them all the time. And will you go to the Englishman's house, Helmi? But how can you live there alone, eight miles from the mines? If you were near enough you could run a boardin' house."

"I am going," said Helmi, "as soon as Lili's well enough. I am not a bit afraid now, and, Mrs. Corbett, in the holidays won't you let Rosie and Danny come? We'll get a cow somewhere, and there will be wild berries; and I know there will be lots of flour and oatmeal in the house, and it will be just like a picnic all summer. You will let them come, won't you, Mrs. Corbett?"

"It will be a lot easier to let them go than to try to stop them when they hear of it—they're fair witches over you and the baby. Well, well, well, Helmi dear, ain't it wonderful how things come out?"

When John Corbett was told the whole story that night, he sat for a long time smoking a meditative pipe its gentle put-put making the only sound in the room. Helmi was going to stay with them until Lili could be taken from the hospital. No. 18 being occupied, Helmi was to share Rosie's narrow bed, the lack of space of which would be amply overcome by the warmth of Rosie's affection.

Helmi sat on a couch which later would be turned into a bed for Danny, and enjoyed the luxury of having such a welcome as the Corbells gave her.

"I am thinking," said John Corbett, after a long pause, "that maybe the Englishman is the best man of the two."

"Oh, no, no, Mr. Corbett!" Helmi cried, distressed. "Mr. English is my good friend I like him he is so good—but I love my Jack. He is my man there is a big kilt—what you call difference—ain't there, Mrs. Corbett? You tell him!"

"Tell him!" said Maggie Corbett scornfully. "He knows, the sly old dog! He knows. I have often told him I'd rather be fightin' with him than agreein' with any other man. That's love—and he knows it!"

### CHAPTER XXX.

Vehemoor, German prison camp known also as Cellelager Six, was built on a peat bog from which the peat had been removed, leaving a sour, raw mud, on which not even a plank or log was laid. When the prisoners stepped out of the door they went to their knees in the indescribable muck. The condition of the camp inside may be imagined. A crowded room of miserable men; two smoking stoves burning the smouldering peat; double rows of berths where greasy blankets on planks furnished the beds; despair written on young faces—despair and bitter hatred.

Here sat Jack Doran, on this wet night in January, 1917, listening to

## UNIVERSITY OF MANITOBA WINNIPEG

Offers, among others, the following Courses:

Through its FACULTY OF ARTS AND SCIENCE courses leading to the degrees of B.A. and M.A., and B.Sc., including B.Sc. (Hon.), and M.Sc. Through its FACULTY OF ENGINEERING AND ARCHITECTURE courses leading to the degrees of B.Sc. (C.E.), B.Sc. (E.E.), M.Sc., and B.Arch.

Through its FACULTY OF MEDICINE courses leading to the degrees of M.D. and C.M.

Through its FACULTY OF AGRICULTURE AND HOME ECONOMICS courses leading to the degrees of B.S.A. and B.Sc. (H.E.). Through MANITOBA LAW SCHOOL, an affiliated institution, a course leading to the degree of LL.B. For terms of admission, details of courses and other information, apply to

W. J. SPENCE, Registrar,  
University of Manitoba, Winnipeg

the sleet slithering down the small windows. He had been in three prison camps before this, having attempted to escape from Geissen and from Cellelager One, been caught and strafed, the last time in the dark cells at Oldenburg. He was dressed in the garments supplied by the Red Cross for prisoners, and carried himself with something of his former erectness. A white V was showing in his brown hair, and there were hard lines around his mouth. Two years of war had told on him. Still there was something about him that suggested hope. Many of the prisoners had the beaten look of men whose spirits are broken, the condition of soul desired by the German guards for the men under their care.

Jack Doran, thin, pale, determined sat planning another escape. He had often wondered at himself for his tenacity. Life had not been so sweet that he should so earnestly desire it. In the days of his freedom he had not found happiness, but the fires of youth still burning in his heart urged him on. He had been captured in the night attack on Gaville, May 3rd, 1916, when part of his platoon lost their way in the darkness and found that they had an enemy behind them as well as ahead of them, and suffered under heavy artillery fire. Jack ran back to save his captain, who had fallen wounded, and they were both captured and separated, his captain going to another camp.

Jack had made his two other attempts in company with a Canadian, who was captured the same day, but when punished the last time in Oldenburg, his friend was sent to some other camp, for the German O.C. believed that separation would make it easier to hold these two adventurous ones.

Soon after coming to Vehemoor, Jack had been fortunate in finding a compass under a pile of peat in the bog where the prisoners were sent to work, probably left there by a prisoner who was fearful of having it found on him, and had abandoned it along with his hope of escape. The possession of a compass, being proof of the desire to escape, was in German prison camps an indictable offence. But Jack had found a loose board in the wall beside his bunk, and there he now kept it.

There were two other men in the camp who had attempted escapes, and between them and Jack a certain free-masonry existed. They met as often as they could to discuss their plans, and on the coldest days volunteered for work on the bog in order that they might have a few hurried words together. They knew that if they showed any unusual friendship they would be suspected of "laying plans."

(To Be Continued.)

### Taking His Revenge

Conductor "To St. Paul, eh? Why don't you stay on and go to Glacier Park?"

Passenger "Because I want to go to St. Paul."

Conductor "Can I sell you a seat in the chair car?"

Passenger "No, not today."

Conductor "A nice dinner on the diner at one-fifty?"

Passenger "Are you kidding me."

Conductor "Not at all; you're my barber, aren't you?"

### Not Too Early

"What time shall I report for work in the mornings?" asked the college youth upon receiving his first job. "Oh, any time you like," replied the office manager, so long as you're here before eight."

Teacher: "What people are scattered all over the earth?"

Class (in chorus): "Pedestrians."

## Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

### MISSING TEETH

Your son is now grown up and should have his full complement of teeth, which is thirty-two.

But the probabilities are that one or more are missing.

Now, of course, the most probable cause for this deficiency is the extractions of earlier years, which you may have forgotten. But, on the other hand, there may be this reason, that the one or more did not erupt.

The teeth more prone to non-eruption are in the order named, the third molar, upper cuspid, upper lateral, and lower second bicuspid.

1. An abscessed condition of a temporary tooth might destroy the germ of the permanent successor.

2. The premature extraction of a deciduous tooth might destroy, through injury, the permanent tooth germ beneath or dislodge it entirely.

3. Childhood diseases accompanied by high fever such as scarlet fever and measles, might, through their general disturbances, injure irreparably the tooth germ.

4. The retention, unduly long, of a temporary tooth, might prevent the eruption of its successor.

5. In the case of the cuspid, sometimes it is fully formed, but having, taken up a position, more or less horizontal, back of the incisor teeth, it fails to erupt.

6. With the third molar, we find that it is due to lack of room to erupt that it remains impacted in the jaw, quite as frequently it does not form at all.

So you observe that a tooth may be missing due to one of several causes—for the most, they are preventable, nature intending that each one should have his full complement of teeth.

### May Serve Good Purpose

Latest Tragedy In Arctic Should Discourage Further Exploration  
By "Plane"

Although not many men have visited the Arctic and Antarctic, these desolate areas of ice and water have taken a high percentage of brave lives, and some of the greatest epics of human endeavor, achieved at the cost of much suffering, and sometimes death, come from these dreadful hinterlands of civilization.

The experiences of the Nobile expedition have filled the world with distress at the knowledge of men drifting for weeks on ice floes, suffering unknown hardships from cold and hunger and physical pain. What happened to some of them may never be known, nor how long they endured and how they ultimately died after waiting hopelessly for succor.

It is just as well, perhaps, that the Arctic keeps its secrets, but the whole adventure will have served some purpose if it causes a revulsion of public feeling against expeditions of this kind. The fate of the Nobile party shows that under conditions such as are likely to be met with in these regions, the airship is no more reliable than the balloon was in the days of the Andre expedition, which left for the North Pole nearly thirty years ago and was never heard of again.

Minard's Liniment—a reliable first aid.

### Typist Abandons Swim

Miss Mercedes Gleitz, London typist, who last year conquered the Straits of Gibraltar, abandoned an attempt to swim the Irish Channel between Donaghadee, Ireland, and Portpatrick. The treacherous currents of the channel forced her to quit.

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

## Designed FOR Dependability

Firestone engineers found that the life of a tire depends as much upon the flexing life of the cords of the carcass, as upon the toughness of the tread.

To provide extra strength, stamina, and long wear, Firestone dips the cords of the carcass in a rubber solution. This saturates and insulates every strand of every cord, minimizing internal friction and gives thousands of extra miles. The Firestone Dealer in your locality will gladly serve you, and save you money.

### Little Helps For This Week

"God is not the author of confusion, but of peace."—1 Cor. xiv. 33.

Light strains of music, soft and low.  
That break upon a troubled sleep;  
I hear the promise, old and new,  
"God will His faithful children keep."

In Perfect peace."

It stills the questionings and doubts,  
The nameless fears that throng the soul;

It speaks of love unchanging, sure;  
And evermore its echoes roll  
In Perfect peace."

True peace is found only in the possession of God; and the possession of God here on earth consists only in submission to faith and obedience to law. Resign every forbidden joy; restrain every wish that is not referred to this will; banish all eager desires, all anxiety; desire only the will of God; seek Him alone—and you will find peace; you shall enjoy it in spite of the world. Fendlen.

Recognized as a leading specific for the destruction of worms, Mother Graves' Worm Exterminator has proved a boon to suffering children everywhere. It seldom fails.

Prince Albert penitentiary is the only Canadian prison at which cordwood is produced. The last report on prisons credits the Saskatchewan institution with producing 236 cords.

Let Minard's Liniment Relieve Pain.

Some men never have any respect for gray hairs until they acquire some of their own.

## Indigestion

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

## Brot Albanach

1. Pretty little Kathie Kemp dancing the highland fling  
at the Highland festival.  
2. The Banff Springs Hotel that will become a veritable  
baronial hall during the forthcoming Scottish gathering.  
The new swimming pool is glimpsed below the hotel.

Brot Albanach appeared on the  
menu of the "Traigh Neoln  
Bladh blath air a bhord; air an  
3mh lath de'n Naidheamh Mios,"  
and if any of those who attended  
the Highland Gathering and Scot-  
tish Music Festival at Banff last  
year could read that far, they  
knew that "Gruthan laigh leth  
bhrulchte, agus mulcail sli-  
sichte," was nothing more formid-  
able than broiled calves liver with  
bacon. If they ordered it, they  
will probably go back for more.  
The Highland Gathering was a  
great success last year. This  
year, between August 31 and Sep-  
tember 3, it will be repeated.  
Banff will be Scotland for a week.  
Pipes will skirl through the for-  
ests and hills; the tartan will col-  
our the trail; and there will be  
dancing, highland dancing, and  
dance contests,—and Caledonia  
games, tossing the caber, and put-  
ting the shot. And in the even-  
ings, music—Scottish music—  
with famous singers as interpre-  
ters. For the first time in Can-  
ada,—for the first time in nearly  
a hundred years anywhere,  
Burn's Cantata "The Jolly Beg-  
gars", will be presented.—Gaelic,  
and the songs of the Lowland  
Scots; and on Sunday, at Sun  
Dance Canyon, a service in the  
open air. The old Covenanter  
tunes will be heard among the  
hills, and the piper will play the  
minister to his pulpit.  
Paintings and Pageantry.—His  
Royal Highness the Prince of  
Wales has once more graciously  
given his patronage to the Banff  
Highland gathering.
